

ERP Strategic Investment Value Drivers

- Promotes organizational standardization & consolidation
- Identifies areas for financial savings through operational excellence
- Provides leadership the information they need to position for the future

How ERP supports organizational goals

Align with Organizational Strategy

- Connects the organization's people with its business strategy
- Proactively identifies opportunities to grow and improve
- Fosters a culture of stewardship, transparency and teamwork

Achieve Operational Excellence

- Implement process improvements to reduce labor costs
- Invest in new models to improve quality, provide access, control costs
- Improve efficiencies and decrease lag times

Drive Growth

- Collaborate with partners to monitor & improve local, national, global outcomes
- Launch marketing campaigns to drive consumer awareness & increase business
- Recruit & collaborate with employee community, add attractive services

Improve Insights & Decision-Making

- Enhance business decisions with real or near real-time data
- Leverage delivered dashboards and reporting functionality
- Use native analytics for insights, drill-downs within system of record

Deliver Superior Customer Experience (CX)

- Focus on customer, less time on task-based, transactional processes
- Improve CX through system-driven enablement
- Enhance customer satisfaction with efficient & enabled staff

Promote an Environment that Inspires & Empowers Staff

- Empower staff to manage their day-to-day responsibilities and long-term career goals
- Facilitate seamless collaboration and interaction between operational and administrative functions
- Enable managers to identify and develop talent

Reduce Risk & Complexity

- Consolidate technology/services & eliminate "silos"
- Remove data integrity issues and integration risks
- Reduce errors and corrections

Automate Manual Processes

- Reallocate time from manual transactions to strategic work
- Automate processes and reduce reliance on paper
- Streamline workflows for Finance, HR & Supply Chain

Provide Coordinated, Accessible & Leading-Edge Support

- Employ analytics & data to predict & prepare for customer needs
- Ensure availability of optimal staff, supplies and support
- Drive performance by connecting systems and revenue
